

SWASTHYA SWARAJ SOCIETY'S SANGAM

Volunteers Needed

We are looking for doctors
who have a high dedication
to society and humanity

SWASTHYA SWARAJ SOCIETY

A People's Movement for Swaraj in Health

About:

SWASTHYA SWARAJ SANGAM (SSS) - Volunteer Doctors for Enhancing Healthcare Equity.

"Of all the forms of inequalities, inequality in healthcare is the most unjust and inhumane."

-Martin Luther King jr

Access to quality healthcare is a human right, yet many tribal communities around the world face significant disparities in healthcare services. One main reason is the unwillingness of we doctors to get out of our familiar comfort zones and experience the other side of the flashy healthcare that we are used to.

SS SANGAM is a confluence of doctors from India and other countries who are passionate, searching for deeper meaning in life, willing to reach out to the most deprived and marginalized people, bridge the gap and improve health outcomes in underserved tribal areas by spending part of precious time, resources and expertise every year.

Swasthya Swaraj and Swasthya Swaraj Sangam (SSS) beckons you to work in the field of tribal health in challenging situations, in resource-poor settings, away from our comfort zones for some time in our life to work towards SWARAJ in health for the poor.

"Medicine is a social science, and politics nothing but medicine at a larger scale...Physicians are the natural attorneys of the poor. Social problems should be their responsibility."

-Rudolph Virchow
